EDUCATION

University of Florida, Gainesville
Major: Mechanical Engineering
GPA: 3.5

Expected Graduation: May 2027
Herbert Wertheim College of Engineering

EXPERIENCE

Bristol Myers Squibb

June 2026 - August 2026

Global Capital Project Engineering Intern

- Managed scope, budgeting, and contractor coordination for a \$500K capital facility renovation project.
- Analyzed capital budgeting and financial cost-control workflows, applying cost-certainty estimates, funding thresholds, and change management processes to prevent scope creep.
- Identified and tracked project risks (such as air quality and environmental hazards) during site walks and cross-functional meetings, ensuring proactive risk mitigation and safety compliance.
- Obtained hands-on exposure to EPCM project delivery by collaborating with external design firms on the end-to-end lifecycle from initial Basis of Design (BOD) to procurement and construction.

Space Technology & Research Laboratory

March 2025 - January 2026

Research Assistant

- Analyzed structural and dynamic trade-offs to support CubeSat testing reliability.
- Assist with design and assembly of a near frictionless reaction test table that simulates how satellites move in microgravity when influenced by a robotic arm.
- Conducted static and dynamic analyses to optimize counterweight placement on a satellite mock-up.

Abbey Adams Byelick & Mueller, LLP

January 2025 - July 2025

IT Advisor

- Implemented cybersecurity protocols to protect sensitive legal data and minimize system vulnerabilities.
- Restructured legacy file directories and database storage systems, accelerating information retrieval times and boosting firm-wide productivity.
- Administered enterprise cloud-based architecture, streamlining data accessibility and ensuring seamless operational workflows for over 50 end-users.
- Directed the overhaul and daily management of the corporate website, optimizing UI/UX and ensuring maximum uptime for internal and client-facing digital assets.

Starbucks

February 2021 - February 2023

Barista & Shift Lead

- Managed daily store operations, inventory control, and staff training on customer service standards.
- Executed high-volume customer service operations, resolving escalations and maintaining peak efficiency during high-traffic operational windows.

PROJECTS

NGT Tech Competition

2022 - 2023

Project Manager

- Led a team to design and develop a customizable corporate training application, managing the end-to-end project lifecycle.
- Monitored project KPIs and critical path milestones, proactively mitigating bottlenecks to ensure all technical documentation was delivered ahead of strict competition deadlines.
- Coordinated team communication and facilitated the final product presentation to judges and industry stakeholders.

Certifications

- Adobe Suite Certified
- SolidWorks Certified
- Harvard CS50x Proficiency in Programming
- Microsoft Office Suite
